

THE VISION

● Provide Opportunities To Students Who Need It

CSP will provide students throughout San Bernardino County, regardless of zipcode, to gain valuable insight into the healthcare field and work toward their career goals.

● Workforce Development

Students will gain skills and experiences to equip them for the dynamic future of work.

● Address the Healthcare Shortage

The aim is to ignite a passion for healthcare among students. CSP will illuminate the path to a career for the healthcare leaders of tomorrow.

“

“I would definitely recommend this to an upcoming junior, this is an experience that is tremendously unique and beneficial to anyone not only with an interest in the medical field but also in college and career life.”

“It has helped me mature as a person and I can take these qualities and utilize them throughout my work and personal life.”

“Not only has this program sparked my interest in the medical field but has also guided me in furthering my education beyond high school.”

FROM HIGH SCHOOL TO HEALTHCARE

CLINICAL SHADOWING PROGRAM

**Introducing the next generation of
healthcare professionals.**

ABOUT US

The Clinical Shadowing Program provides junior and senior high school students with an immersive experience at San Antonio Regional Hospital to impact their understanding of healthcare careers.

From receiving mentorship to observing procedures, participants gain a firsthand understanding of the challenges and rewards of a medical career.

"The program is very fun and interactive. You will definitely wish it lasted longer."

THE CLINICAL SHADOWING JOURNEY

The inaugural class (Summer 2023) of Clinical Shadowing students observed and learned directly from healthcare experts in the Surgery, Cardiology, Laboratory, Pharmacy, and Telemetry departments of the hospital.

Clinical Rotations

Students will rotate through and observe various departments in the hospital.

Leadership Seminars

Students develop professional skills from healthcare leaders during sessions on leadership, medical ethics, community health, college planning, insurance and more.

Culminating Presentations

Students present experiences to site supervisors, family, hospital board members, and other influential partners while celebrating their journey.

THE FUTURE

Expand reach by including students throughout San Bernardino County.

Shadowing experiences with different departments in the hospital.

Increase number of cohorts per year.
