

**SAN ANTONIO
REGIONAL HOSPITAL**

Medical Staff

SARH MEDICAL STAFF NEWSLETTER

Volume 3, Number 1
March 2022

Dear San Antonio Regional Hospital Physicians and Healthcare Providers,

I will take this opportunity to greet you all and introduce myself to those that may not know me personally yet. Entering the role of Medical Staff President at this time is certainly exciting and anxiety-provoking at the same time. Clearly, the obvious challenge of the pandemic is a strain for us all. We continue to maneuver and innovate to clear the hurdles that seem to appear at random intervals before us. It speaks to the strength, intelligence and ingenuity of a great group of people. I look forward to fostering relationships with you all.

I have been on staff at SARH (previously SACH) since 2008. I am an Emergency Medicine Physician with Mountain View Emergency Physicians Medical Group. I came to San Antonio straight out of training after completing my Combined Emergency Medicine/Internal Medicine Residency and Fellowship in Emergency Ultrasound programs. San Antonio Regional Hospital has fostered me and helped me grow from the eager-eyed junior attending to the more gray-haired and hopefully more mild-mannered "seasoned" attending. The ride has been great and I am grateful that San Antonio Regional Hospital is where I landed because I love this place.

The pandemic has taught us that well laid plans can crumble easily and adaptations are probably more important than plans. In that vein, I will say that my goals are to continue to strengthen the relationships between physicians. I hope to be a communicative President and consider the perspectives of my colleagues. The bridge between the hospital administration and the medical staff is critical. As such, I endeavor to keep an open door with the leadership of San Antonio Regional Hospital.

I am in a privileged position as an Emergency Medicine Physician because we have the blessing of getting to know all of our colleagues. I can say that I have had conversations with most of you at 6:30am, 2:15pm and apologetically at 3:00am. My role has given me the chance to get to know most services from the Pediatrician to the Oncology Surgeon, the Hospitalist to the Primary Physician and the docs in between. It is quite a privilege, as I said before.

I want to thank Drs. Dang and Khan who have helped me over the last year and tutor me into the role that is now two months old. I want to thank the ladies in the Medical Staff Office who have been so kind to me over the years and continue to be the backbone of this Presidency.

I hope that 2022, which is starting in such a challenging way, allows this institution and our staff to grow together. I hope we continue to innovate, be creative and focus on quality. Our community has counted on us for so many years and I will make sure that we continue to be that beacon.

Sincerely,

Dennis Trigueros, M.D.
Medical Staff President 2022

Medical Record Updates

14 Day Completion Requirement

To ensure continuity of care and facilitate accurate medical record documentation, effective February 14, 2022, medical records are required to be completed by the 14th day post discharge. After 14 days, delinquent records will qualify for suspension in accordance with hospital policy and Medical Staff Bylaws:

“Members of the Medical Staff are required to complete medical records within fourteen (14) days after discharge. A limited suspension, in the form of withdrawal of admitting and other related privileges until medical records are completed.....”

Queries

In addition, please be advised that effective February 14, 2022, physician queries must be responded to within 14 days. Delinquent queries are part of the legal medical record and will qualify for suspension. It is important that queries be addressed to ensure accurate documentation and code assignment.

Order for Consultation: SNF and Home Health

There has been a significant increase in discharge delays due to orders being entered for discharge to SNF or HH without an accompanying consult order for Case Management. Please remember to place an order for a consultation for Case Management to ensure timely follow-up and discharge.

Foundation News

San Antonio Hospital Foundation has exciting events scheduled for 2022 and we invite you to attend. Serving the healthcare needs of the community is at the heart of San Antonio Regional Hospital’s mission.

Donations and sponsorships enable the Foundation to support programs and services such as the Lewis-San Antonio Healthy Communities Institute, nursing education, oncology, cardiac care, and women’s health. Recent support also enabled the purchase of a da Vinci Robot, new patient beds, a Xenex Ultra Violet Robot, and the construction of a third cardiac catheterization laboratory.

Mark your calendars for an exciting year of philanthropy – we welcome you to join us! Please call the Foundation office with any questions at 909.920.4962 or email Foundation@SARH.org.

Tele-Psychiatric Services:

Physician may request a psychiatric consult by adding an order for psychiatric evaluation and contacting the psychiatrist on staff. If the psychiatrist is unavailable, a psychiatric evaluation may be facilitated via Tele Psych services. Tele Psych communication device is located in Emergency Department as well as all inpatient floors. **Please have nursing arrange for Tele Psych consultation.**

COVID-19 Vaccine Booster:

Both Pfizer and Moderna booster vaccines are now available in the Hospital Vaccine Clinic located in the Art Gallery (by the main entrance) or the SARH Urgent Care clinics. Hours for the clinic are 8:00am to 2:00pm, Monday through Friday.

Physicians’ office staff may receive the booster at Urgent Care clinics. If you have any questions, please reach out to the vaccine clinic at (909) 985 - 2811 ext 24100.

COVID-19 Vaccination & Booster Documentation:

Please forward a copy of your vaccination **and booster** records to the Medical Staff Office. This can be sent either via fax to 909-949-3970 or email to credentialing@sarh.org.

Thank you!

CME PROGRAMS/WEBINARS/LOCAL MEETINGS:

SARH CME Schedule: *(Via Emailed Zoom Link)*

- 3/24/22 “Patient Blood Management” – Steven Frank, M.D.
Professor, Director, Johns Hopkins Health System Blood Management Program
Director, Center for Bloodless Medicine and Surgery
Faculty, Armstrong Institute for Patient Safety and Quality
Department of Anesthesiology/Critical Care Medicine
The Johns Hopkins Medical Institutions

Dr. Steven Frank is a professor in the Department of Anesthesiology and Critical Care Medicine at the Johns Hopkins Medical Institutions, where he specializes in anesthesia for vascular, thoracic, and transplant cases. Dr. Frank is the Medical Director of the Johns Hopkins Health System Blood Management Program and he also directs the Center for Bloodless Medicine and Surgery, a program for patients who wish to avoid transfusion.

His recent work relates to clinical studies in the area of collection and analysis of transfusion data from electronic medical records and methods for using such data to improve practice. He is currently on the Editorial Board of the journal *Transfusion*, and has served on the Board of Directors for AABB and SABM. He is also chair of the Committee on Patient Blood Management for the American Society of Anesthesiologists.

Dr. Frank will discuss the techniques used before, during, and after surgery to help patients minimize blood loss and the need to receive donated blood. He will also explain how to establish and follow best practices for blood management, utilization, and implementation as well as the need to consistently follow current guidelines for transfusion. Clinical and cultural factors associated with blood transfusion medicine and its impact on patient care will also be covered. Dr. Frank will reflect on the patient populations most affected by the need for blood and blood products and consider how implicit bias may impact appropriate care of these patients.
